Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

**RESPONSE**

Responsive to the Notification to Comply with Requirements for Patent Applications Containing Nucleotide and/or Amino Acid Sequence Disclosures dated February 16, 2006, copy attached, further clarification is requested as to what may be required beyond the previously filed and accepted Sequence Listing. Specifically, the attached Notice of Acceptance mailed February 23, 2006, which acknowledges receipt of the applicants Sequence Listing filed December 15, 2005, and the attached "CRF Entered Raw Sequence Listing" which indicates the CRF has been passed by STIC (Scientific and Technical Information Center) on December 27, 2005, suggest that nothing further should be required in response to the attached Notification of February 16, 2006.

Clarification is requested in the event anything further is required in response to the attached Notification.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
